

Opportunity 6

Print Feeder - Flexible Lean & Agile Automation of Handloading Area

JLP / January 2023

Print Feeder - Handloading Area

Main application areas of Print across LINAK products

Actuators

Control Boxes

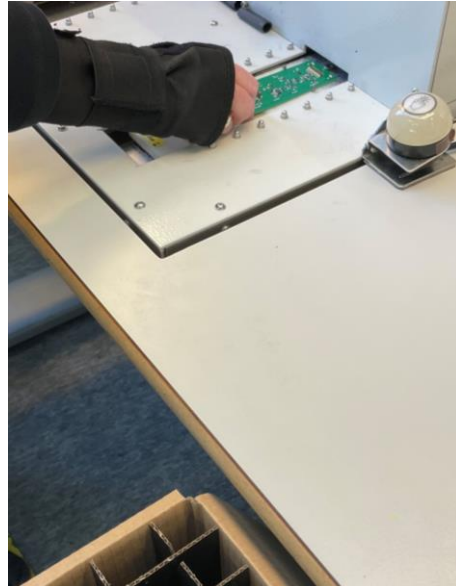

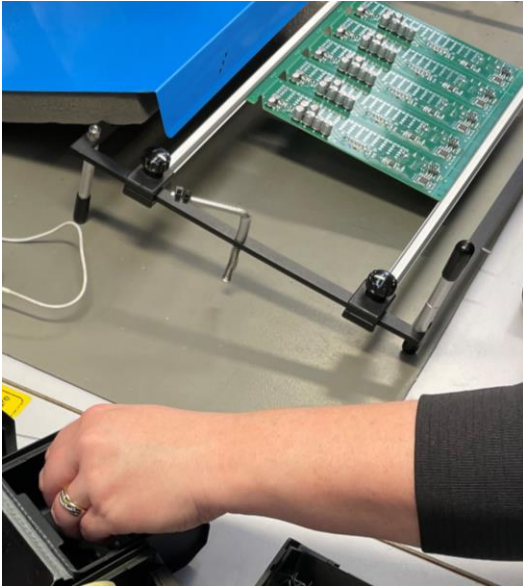

Controls

Accessories

Handloading area for Print

Main processes in Handloading area:

- Pick print single/sheets from ESD-boxes or Magasins
- Split print sheets into single print
- Pick & Place print in Test Fixtures
- Load electronic components from Boxes / Trays
- Handloading of electronic components on the print

InnovationSprint Challenge:

Identify the most optimal Lean & Flexible Automation solution across the entire Handloading Area at the Print Feeder

WE IMPROVE YOUR LIFE
