Electronics - Flexible Lean & Agile Automation of Control box configurations

JLP / January 2023

Control boxes for MEDLINE® & CARELINE® applications

LINAK systems help improve ergonomics and efficiency in healthcare.

The hospital and care sector has always been a central focus area for LINAK, and all our healthcare solutions comply with international norms and standards.

Multiple manufacturers prefer LINAK for reasons such as durability, washability and safety

Main application areas for the Control boxes to MEDLINE® & CARELINE®

Dental Chairs

Treatment Couches

Nursing Home Beds

Healthcare Beds

Today LINAK is a supplier to multiple manufacturers of adjustable patient lifts, hospital beds, dental chairs, X-ray equipment, treatment couches and much more.

Electronics Control box configurations

Pick Control box from Carboard box

Place/Mount label on Control box

Place Control box in Programming Fixture

Programming/Configuring of Control box

Remove Control box from Programming Fixture

Packaging of Control box in Carboard box
