D R I V E S
a member of maxon group

You are invited to

Stork Drives
Technical Seminar
- with Robotics in focus

Date
22nd April

Location
University of Southern Denmark
Campusvej 55, 5230 Odense

Participation is free, but spots are limited.
Please register early to secure your place.

Electrical Drive Systems: How to Choose the Right One and Why It Matters

If you're working on selecting or specifying drive units, this seminar is for you.

Join us for a compact, informative session where we walk you through:

- How to select the right electrical drive system
- Key factors often overlooked by engineers and purchasers
- Opportunities to deepen your knowledge within robotics and advanced motion solutions

The seminar takes place in a relaxed and educational setting and is led by **Dr. Urs Kafader** from the maxon academy, the education center of the maxon group, headquartered in Switzerland. **Mario Mauerer**, expert in robotics at maxon, will give a shorter virtual presentation focused on robotics and practical application insights.

Technically optimized and cost effective drive solutions are often a result of a close cooperation with our customers. Experts will be available to discuss your specific application in detail.

Register by sending an email to: thomas.rattleff@storkdrives.com

Agenda

Choose one of the two identical sessions:

Group 1

08:30 – 09:00 Arrival

09:00 – 11:30 Seminar & Q&A

11:30 – 12:30 Lunch & Networking

Group 2

12:30 – 13:00 Arrival

13:00 – 15:30 Seminar & Q&A

15:30 – 16:15 Aperero & Networking

We look forward to welcoming you to a valuable and engaging day.
